

SimpleCare premiums

– full medical underwriting

individuals and families

Currency: US Dollars (USD)
Effective date: April 2024

How to calculate **your premium**

- 1 Decide which plan suits you best.** You can select from one of our three SimpleCare plans: SimpleCare CORE, SimpleCare 100 or SimpleCare 250.
- 2 Find your default area of cover and rating area.** Based on your country of residence, you will see your default area of cover and network. Please refer to the page number to find the premiums for your rating area.
- 3 See your base premium** based on the ages of those to be covered and your preferred payment frequency.
- 4 Select your annual in/day/out-patient deductible** that you would like to apply to your plan. These range from nil to USD 15,000. Remember that a higher annual in/day/out-patient deductible will reduce your plan premium.
- 5 Choose an upgraded geographical area of cover.** This option (if available) expands where you can seek medical treatment.
- 6 Select one out-patient option** that are available for the SimpleCare plan you have selected. For example these might include USD 25 out-patient per visit excess or 20% out-patient co-insurance option.
- 7 Add a family discount.** Enjoy a 10% discount if you add a spouse and at least one child to the plan. For large families enjoy a 15% discount if you add a spouse and at least three children.*
- 8 Calculate your final premium.**

**This will apply to new policies written from 1st April 2021 onwards.
Please note that your SimpleCare premium may be subject to Insurance Premium Tax based on your country of residence.*
